WHERE GREAT ART STARTS

Art so fresh the paint's still wet.

Baltimore's visual artists—they're brilliant, inspired, and dazzling. Now this fall, you'll have the rare chance to step into their studios and their worlds, during **School 33 Art Center's Annual Open Studio Tour, October 20 & 21, 2007.**

Through this free, self-guided two-day tour, you can experience simply the best of Baltimore's diverse art scene. Encounter fresh works in painting, sculpture, photography, installations, clay, mixed media, and more, right where they're made—and often, literally in the making. And, as any art lover will tell you, the Annual Open Studio Tour is the greatest way to connect personally with local artists in a relaxed atmosphere, ask questions, and, of course, purchase original artwork.

This year's Open Studio Tour, held in conjunction with Arts and Humanities Month and Free Fall Baltimore, features more than 193 Baltimore artists with a range of styles from the traditional to cutting edge. The weekend's events kick off with a Friday evening opening reception and exhibition at the newly renovated **School 33 Art Center!** The exhibition features a survey of works by the Tour's 193 participating artists, many of whom will be on hand to discuss their art.

To get started, just use the Open Studio Tour Map to locate artists by day, location, and media. Then discover for yourself where great art starts!
